

Timeline of Warren Mosler's Hiding of a 7-foot-tall stack of Evidence for over 5 years

- 1) **2011:** The bizarro events occurred. *The central theme was GREED.* Instead of simply honoring his agreements, Warren Mosler attempted to TAKE everything from me.
 - a. Mosler is a multi-billionaire....so why the hell would he do such a thing? Why not simply honor his agreements????
 - i. ANSWER: *Men Like Mosler* take Pleasure in the Pain of others.
 - b. Ordinary people (myself included) don't encounter this level of greed in their lives, so we just don't see it coming. It is tough to imagine that level of evil walking around Publix.
 - c. Ordinary people don't believe that *Men Like Mosler* are stealing from them via Money Printing; but the economic facts are that the extra money winds up in the pockets of the uber-rich. It is slowly siphoned off from ordinary people who work for a living.
 - i. *Men Like Mosler* find it amusing that we struggle to buy groceries...and that we don't realize how/why it happened.
- 2) **2013:** After Mosler has toyed with me for over a year; stringing me along that I might be able to utilize my \$100,000 deposit to buy MACC and make my dreams come true → Mosler sold MACC to RP High Performance and indemnified them against the contracts SEI held with MACC.
 - a. Warren Mosler took on EXTRA RISK, simply to see my dreams be destroyed. That is sick.
 - b. Furthermore, Mosler took \$500,000 from RPI instead of the \$650,000 that I had offered. *Thus, Mosler took on extra risk AND \$150,000 less money simply to ensure I could not be successful.*
 - c. Warren Mosler instructed his attorney, Steven Weber (from Miami) to mock me about Mosler taking MACC out of my reach:

1 Now, when they failed to close the purchase,
2 the evidence is going to show that Mr. Wagner was
3 heart broken and a new buyer emerged, somebody that
4 Mr. Wagner knew had the funds to close the purchase
5 and finally purchase MACC. His name is Savvas
6 Savopoulos.

7 Now Savvas is not going to appear today
8 because he was unfortunately murdered, but the
9 evidence will show that he had the finances to
10 purchase MACC. He was about to close. The
11 evidence will show that as part of his closing he
12 sent Mr. Wagner a Release and Termination Agreement

THIS MAN IS SHADOW-CONTROLLING YOUR MONEY. YOU SHOULD BE TERRIFIED.

- I have done some volunteering (trying to fix the system – see JudgeX.org) in the pursuit of curtailing/eliminating Human Trafficking. Human Trafficking is the PC term for taking little girls from their parents and having them be raped until death (the typical lifespan for a sex-industry little girl is 7 years).
- One of the ways the little girls die is being killed for pleasure by the rapist.
- **Men Like Mosler** take pleasure in the pain of weak souls they dominate.
- It is amusing to Warren Mosler that I was “heartbroken”. **Taking pleasure in my pain.**

- 3) **2014:** I and my company, SEI, sent approximately 100 different “Requests for Production” that identify specific documents that Warren Mosler is legally-required to send to me as part of the fair pursuit of justice.
- a. Approximately 98% of the answers from Warren Mosler were “none” – indicating no documents (emails) exist.
 - i. 7 years of designing building vehicles at MACC
 - ii. Employees / Distributors in 5 countries
 - iii. **No emails**
 - b. If the answer wasn’t “none”, it was something like “objection, relevance” or “attorney-client privileged”.
 - c. Plaintiffs were given approximately 10 sheets of paper, many of which were half-emails. One of them was a half email **“Any pressure you can put?”** I wonder if that was done on purpose.
- 4) **2018:** Plaintiffs file a Motion for Sanctions for Spoliation, and a hearing occurs on August 24, 2018.
- a. The burden of proof that emails existed in the first place is on the party who doesn’t have the emails.
 - b. Since Mosler says they don’t exist and I say they do exist; a 3rd party is needed to ‘break the tie’. I serve the Vice President of Global Operations, as she isn’t a party to the lawsuit.
 - i. I know she is in Mosler’s pocket, but I don’t believe she will risk going to prison for Perjury in order to lie for him.
 - ii. I’m wrong.
 - iii. I now know that witnesses commit perjury regularly in Civil Court and are [never] punished for it...therefore **PERJURY PAYS.**

c. MACC-VP testifies:

- i. Warren Mosler wasn't making the operational decisions for MACC [building cars illegally / defamation / etc].
 1. ALTERNATE REALITY TESTIFIED TO THE JUDGE: "Mostly, since he is – he [Warren Mosler] has a lot of other entities that he was involved with – most of what I did was through the direction of Alan Simon"
 2. ALTERNATE REALITY TESTIFIED TO THE JUDGE: Q: You said you had to deal with Alan Simon, Mr. Mosler's attorney, correct? VP-ANSWER: "Yes."
 3. ALTERNATE REALITY TESTIFIED TO THE JUDGE: Q: Okay, When anything odd, out of the ordinary came, how did you deal with Mr. Mosler? VP-ANSWER: "I usually would talk to **Alan**."
- ii. She didn't remember emails.
 1. ALTERNATE REALITY TESTIFIED TO THE JUDGE: "I'm very proactive on the **phone**. I do better on the **phone** than e-mail, even to this day, to me."
 2. ALTERNATE REALITY TESTIFIED TO THE JUDGE: "We did a lot on the **phone**, Alan and I, because I've always been a **phone** person."
 3. ALTERNATE REALITY TESTIFIED TO THE JUDGE: "Absolutely. Warren is very big on the **phone**."
- iii. MACC didn't build the 2012 Mosler RaptorGTR.
 1. ALTERNATE REALITY TESTIFIED TO THE JUDGE: "I heard RaptorGTR. So that's, perhaps, what it's going to be, but we didn't go into production"
 2. ALTERNATE REALITY TESTIFIED TO THE JUDGE: "I've never seen a picture of Number 2 [RaptorGTR]. I don't recognize the taillights."

RESULT: Because the MACC-VP did everything in her power to deny the existence of the 18,500 pages of emails that I now have; AND she presented convincing ALTERNATE REALITIES to Judge Hafele...the Judge denied our Spoliation Motion. The Court stated that it denied Plaintiffs Motion because Plaintiffs couldn't prove that the emails existed in the first place.

I was (of course) stunned at the VP's testimony. It took approximately 8 months of depositions in multiple states to get Alan Simon to crack about the existence of the emails.

15 Q And you have that same computer as you sit
16 here today that you searched on two days ago, correct?

17 A The one I use?

18 Q Yes.

19 A My house computer?

20 Q Yes.

21 A Yes.

22 Q So if we wanted to send an expert over there
23 to search your archive folders, they are accessible?

24 A I would have a big problem since we have all
25 our finances and everything else there. So I'd have a

1 big problem with somebody searching my computer.
2 Q My --
3 A As I said, I gave all the documents to the
4 St. Dennis law firm.
5 Q How many documents did you give to the
6 St. Dennis law firm?
7 A A lot, fair amount.
8 Q I don't understand what a "fair amount" is.
9 A I don't know.
10 Q Okay.
11 A Could be 50, could be a hundred.
12 Q Okay.
13 A It's a significant amount.
22 How long ago did you turn those over?
23 A Years ago.

Within the **7-foot-tall** stack of evidence that we received 3-weeks later, is a secret email from the MACC-VP to Warren Mosler drafting a Press Release at Mosler's request about the 2012 Mosler RaptorGTR [twin turbo]...wherein she touts the unique taillights of the RaptorGTR. Oops.

How is this.....

Mosler Automotive has achieved certification for its 2012 twin turbo model. The car features a newly styled rear bumper with single tail lights and boasts 838 hp.

Mosler has been producing and distributing the world's top performance cars manufactured US road legal for over twenty years. The owner, Warren Mosler, continues to actively seek a managing partner.
